「オープンアクセス」

To achieve **open access to scholarly journal literature**, we recommend two complementary strategies.

(Budapest Open Access Initiative (2002))

I. Self-Archiving (⇒グリーンOAと呼ばれる)

学術誌で発表した論文を、著者が自身のウェブサイトや所属機関のウェブサイト（機関リポジトリ）でも公開する

II. Open-access Journals (⇒ゴールドOAと呼ばれる)

無料公開される学術誌上で論文発表する。APCが課される場合もあれば、紀要や一部J-STAGE誌のように金が動かない場合も

学術論文等の即時オープンアクセスの実現に向けた基本方針（令6.2）

- (1) 公的資金による学術論文等の即時オープンアクセスの実施
- 公的資金のうち2025年度から新たに公募を行う即時オープンアクセスの対象となる競争的研究費を受給する者（法人を含む）に対し、該当する**競争的研究費による学術論文及び根拠データの学術雑誌への掲載後、即時に機関リポジトリ等の情報基盤への掲載を義務づける。**
 - 即時オープンアクセスの対象となる競争的研究費制度は、学術論文を主たる成果とするものとし、関係府省が定める。

(以下略)

- 科研費（学振）

OUP's options for publishing open access in journals include:

- **Fully open access**

- Articles published in fully OA journals are available to all; no subscription is required. OUP's fully OA journals use Creative Commons licenses and there is usually an Article Processing Charge (APC) for OA publication.

- **Hybrid open access**

- Hybrid journals include a mix of open access articles and articles available to those with a journal subscription.
- Hybrid journals offer authors the option of gold open access publishing. With gold open access, authors usually pay an APC to make their research articles available immediately upon publication, under a Creative Commons licence with re-use rights for readers.
- For articles published under a Creative Commons licence, readers can re-use the work under the terms of the applicable licence.

- **'Read and Publish' transformative agreements**

- OUP has agreements with many institutions to provide access to OUP journals for faculty and students and provide funding for open access publishing for affiliated researchers. Find out which institutions are participating, and how to take advantage of [available funding for publishing in an OUP journal](#).

- **Green open access and self-archiving**

- OUP has self-archiving policies that permit authors to take advantage of green open access by depositing their accepted manuscript (i.e. the post-acceptance version, before copyediting) into a non-commercial repository. In non-commercial repositories, articles can become freely available after the proscribed embargo period. Find out more about [OUP green OA for journals](#).

OUP's options for publishing open access in journals include:

基本方針への大学・大学図書館の対応

- 研究者が、受給した競争的研究費のルールを無理なく円滑に履行できる環境の整備

どのように具体的ルール化がなされるかをウォッチ

1. 基本方針、競争的研究費のルールの中構成員の理解促進
2. 機関リポジトリの運営、わかりやすい論文公開手順
3. APC負担への配慮、合理的な包括契約（⇔財政的制約）
